

LA MyIR gives you free, quick, easy and secure online access to your family's immunization records. It's ideal for:

- Proof of immunization for **school** or **camp registration**
- Seeing a **new healthcare provider**
- Tracking **boosters** and **yearly immunizations**, like the flu shot
- Managing immunization records for an **elderly parent**
- Preparing for foreign **travel** or **moving to another country**
- Being prepared in case of **emergency**

You need an easy way to access your family's immunization records.

Rx  
Inject more  
**CONVENIENCE**  
into your family's  
immunization records.

## Getting started is as easy as 1-2-3. All you need to do is:

- 1. Register.** Complete a LA MyIR enrollment form online using your computer or mobile device at [LA.MyIR.Net](http://LA.MyIR.Net).
- 2. Request.** Contact your healthcare provider to request that he or she approve your registration. Once approved, simply log on to LA MyIR to activate your account.
- 3. Review.** View, download or print your family's official vaccination records online anytime, anywhere, as often as you need.

**Now you can manage your family's immunization records online.** When you sign up for LA MyIR, you can use any trusted Internet-enabled device to view your official up-to-date immunization records. You can also download, save or print an official copy. **Why use LA MyIR?**

### **It's easy.**

Gaining access to your immunization records is easy. Simply complete an enrollment form online at [LA.MyIR.Net](http://LA.MyIR.Net) using your computer or mobile device, then ask your healthcare provider to approve your enrollment. Once approved, you can view, download or print your records whenever you need, including from your smart phone. Best of all, you only need one login ID and password to access immunization records for all of your provider-approved family members.

### **It's convenient.**

You may not need your immunization records often, but when you do, LA MyIR enables you to effortlessly download and print official copies as you need them, without an extra trip to your healthcare provider's office. Perhaps you're registering kids for Kindergarten or summer camps, moving them into a new school district, seeing a new healthcare provider for the first time, applying for state support such as WIC, or maybe you just want more control over your family's health records. Whatever the reason, LA MyIR has you covered.

### **It's secure.**

Accessing your immunization records through LA MyIR is just as private and secure as banking or paying bills online. What makes LA MyIR so secure? First, you create your own password. This means that only you can access your family's records. Second, no other personal information is available through the tool. Your information is protected. Third, none of your immunization information is stored within LA MyIR; your account simply allows you to access your records that are stored in your state's immunization registry.
